

San Francisco VA Health Care System

The San Francisco VA Health Care System (SFVAHCS) provides consultation, evaluation, and treatment for a variety of issues that can impact the emotional well-being of our nation's veterans at the San Francisco VA Medical Center and at community-based outpatient clinics in Clearlake, Eureka, San Bruno, Santa Rosa, Ukiah, and downtown San Francisco. In partnership with the VA, UCSF Psychiatry faculty and researchers conduct research and training to ensure state-of-the-art treatment.

For more information, visit the SFVAHCS Mental Health Service website ^[1].
